

OUR SHARED HOMES

Referral Program

Travel differently. Stay like you belong.

How members and partners earn by growing the OSH community

oursharedhomes.com

Sharing OSH, let's grow together!

Word of mouth is how a trusted community grows. OSH rewards it in two ways, a referral program for members, and a separate partner program for businesses and promoters who help spread the word to their own audience.

Member Referral Program

Every member can invite people they know to join OSH and be rewarded with Credits when they do.

How it works

Every member is given a unique referral code automatically when their account is created. The same code is used permanently, it doesn't change or reset after each referral, and it never expires. You'll find your code and a shareable link in your dashboard, ready to copy and send as often as you like.

When someone signs up, they can enter a referral code at that point. It's validated in real time, and once used, it's permanently linked to their account. A code can only be entered at signup, not added afterwards, and members can't refer themselves.

When the reward is paid

No Credits are awarded just for signing up with a code. The reward fires once the referred member is fully live, meaning they've completed identity verification and published their first listing. If a referred member never gets there, the referral simply stays pending, visible in your dashboard, with no reward paid on either side.

Recipient	Credits awarded
Referring member	10 Credits
New member (on top of 15 welcome Credits, 20 total)	5 Credits

Your referral dashboard

- Your unique referral code and a copyable referral link
 - A count of successful referrals, members who've gone live
 - Total Credits earned through referrals to date
 - A list of referred members by first name and join date
 - Pending referrals, clearly marked as not yet live
